counting six runs in the final frame and copping the contest by the source of 10 to 4.

Tiny Goodbred was on the bill, and the outcome was but unexperted. The surprising part was that he lasted as long as he did.

The two clubs entered the ninth with the score standing 4-4. Goodbred was pitching for Memphis and Haid fee Mobile, each having been rished in as a resciler.

Allen started the ninth with a clean single. Haid was up and Goodbred couldn't locate the plate, giving the Bear twirfer a free ticket to first Tommy McMillan came up and bunded to Goodbred, who lumbered around until he finally got hold of the ball and then made a high throw to Lewis who covered first, which farmined the base. Ducote hit to Collenberger, who made a low throw to the plate with a made-to-order double play in sight, and Allen counted. Golvin singled to center and Haid went over. McMillan got caught between third and home and was finally extinguished. Ducote reaching third. Mulvey tripled to center, and Ducote scored. Turweller tripled to center and Mulvey soured.

Goodbred was vanked, but if was too late. Bill Thweatt went in and Mullen hit to the infield, with the ball being played to the plate too late, and Turweller counted. Fonds and Allen were easy infield outs.

In the Chicks' half of the ninth Meyers led off with a two-bagger, but was provided nothing to ride home on. Lewis was called out on strikes to end the ball game.

COLEMAN BANISHED.

Bob Coleman, manager of the Mobile club, was banished from the park in the eighth inning by Umpire Harry Johnson, who became impressed with his authority all of a sudden and chased the Bruin leader for practically noth-ing

He became red in the face. He yelled at Coleman to get out of the game for remove himself bodily and without further ado from this ball yard. Coleman was so surprised that he couldn't get his tongue to wagging for a moment. When he gleaned the full import of the umpire's orders, he got under way with a choice collection of words that befitted the occasion.

The umpire walked around in a cirtle with his chin stuck out denoting determination to assert his authority Coleman, after having his say, left the ball park, while fans from all sections of the stands hurled quite a few veclain missiles at the impire for his inceffied-for show of authority, and his freequick banishment of Coleman, nover a scrappy

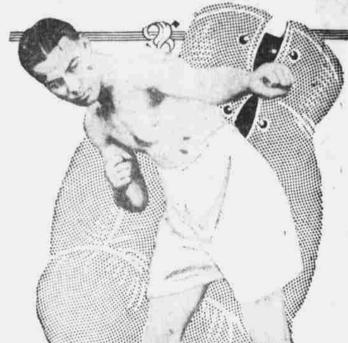

player and who meant nothing by to-sing his bat in the air. Coloman's banishment carried with it a fine of \$10.

ern league that the Memphis club is the team that must be beaten if other clubs have a look in at the pennant Every city where the Chicks have visited this season baseball critics have pronounced the club one of the strongest the Southern league has ever had.

The Tribe is a hard-hittling outfit, and there lies the secret of its success. Its pitching has not been unusually good except on rare occasions, such as Dazzy Vance's work at times, and the class that Hugh Canavan and Pat Albris have shown. But as a hitting aggregation the Chicks rank well above any outfit in the league. And as it requires base hits to coin runs, this may be well taken as the answer as to why the Tribe is at present setting the pace.

FOR TWO PITCHERS.

FOR TWO PITCHERS.

The crying need of Chief McCloskey, of the Chieks, is for a pair of pitchers, for the bantism of fire is yet to come, as it is through July and August that the worth of a ball club is on trail.

The pitching that Parzy Vance, Hugh Canavan and Pat Albris have shown his season has been good, but this ris can not long bear all the burden without cracking. Already these three moundmen are showing signs of the certific drive of the Chicks which has found them on the hill sometimes as much as three times weekly.

The Chicks need two pitchers, but the outlook is not brilliant at the proceed. While a strong offert is being made to leader the night, the fact remains that all pitchers who are worth e not available. who are work

Evidently he has changed his mind. DELMONT VS. HEIDERER. Talk of a contest netween Gene Delmont and Johnny Heiderer is now going the rounds. After Heiderer's victory over Martinelli and Delmont's showing against Tucker, fans figure that the two should peel off a whirlwind battle. Heiderer was too dumpy for Martinelli and Delmont was too short for Tucker, but Heiderer came home in front, and Delmont all 'but did likewise. If there is any chance of removing the wrinkle Ganee must do it Monday night. Mitchell looks to be in shape and is confident of winning again. He doesn't understand how he has a chance to loose,

Hayes and Douglass will swap punches in their skit, and the affair promises to be a survival of the fitter. Isouglass is meeting Johnny Heiderer Thursslay night in Blytheville, Ark., and if he can stand up against Johnny under the weight handicap, he should be good enough to slight Hayes the entertainment of his career.

Hayes has not been in action in some time. After losing sections of his hide in Hot Springs and picking up a few bruises on the side, he decided it

seeing in New York, and was out about Grant's torch. A con man sized him up and ast if he'd ever seen the tomb turn around. No, said the new boy, but I'd love to. Well, chirped the conman. It turns every day at 4 o'clock, but the keeper is a friend of mine, and for five bucks I could fix it with him to turn it now. The rube slipped him the 3. and when he told the boys about a mocak thief robbin him, the game ragged him till be quit the game. And he looked like a comer, too. They's another reason why big lengue managers is gettlis leary of these boys from the hills. Since they justed this employers' liability bill, there ain I many managers oan stand the strain of looking at 'em eat with their knives for if one of 'em ever makes a miscue and cuts his throat, the club is liable for damages.

HEREVER automobiles are discussed the merits of "Hot Spot Chalmers" are freely conceded.

For its Ram's-horn and Hot Spot devices have solved the problem of extracting the maximum power from low grade "gas."

And Chalmers performance has proved that those engine troubles which are almost invariably associated with the use of this low grade "gas" have been eliminated.

Hot Spot "heats up" the raw "gas," "breaks it up" and vaporizes it into a "cloud."

This makes just the right kind of fuel for the cylinders.

Ram's horn, with its easy air bends, rushes the "cloud," at a speed estimated at 100 miles an hour, an equal distance to each cylinder, and when the spark plugs ignite the "gas" you get
